## FIRST HYDROGEN UNIT ON STREAM

HLAR, the first Hydrogen Unit of the HDS project, was completely on stream this morning using part of the Hydrogen production to reform the pentane feed for sulfur removal. The remaining Hydrogen production is being vented. Pentane feed was introduced to the unit at 6 a.m. Sunday, and within 36 hours on-specification Hydrogen of 97+% purity was being produced. The design basis for the plant is minimum 95+% Hydrogen purity.

Hydrogen production at the present time is about 35% of plant capacity. The production rate will be increased in several stages to check the operability of the plant.

The Hydrogen Plant start-up was under the direction of Process Foreman John Every, former ACI Operations Supervisor. Congratulations to John and to all of the able Lago, ERE and TOA HDS team members assisting him.

## LEONARDO HODGE CELEBRATES 25TH SERVICE ANNIVERSARY

Today, Leonardo R. Hodge, Process - Terminal, Floating Equipment, is celebrating his 25th service anniversary.

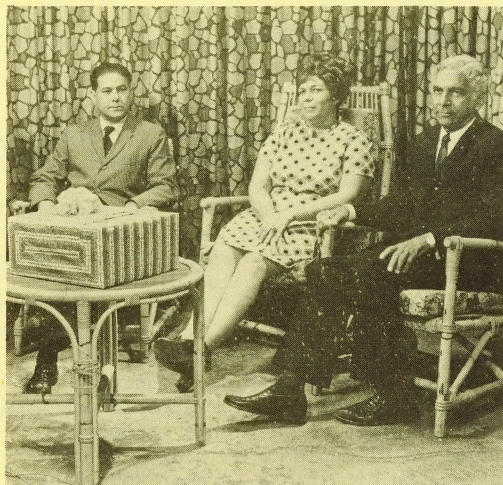

Congratulations!

## AGREEMENT ON ARRANGEMENT FOR DAYS LOST IS OPTIONAL

The following agreement between Lago/IOWUA was published in yesterday's Diario:

- (1) The Company will grant the covered employees who did not work during the work stoppage a loan equivalent to 60% of their respective estimated net take-home pay loss. The loan will be repayable in six months, from May through October pay.
- (2) The Company will allow the same employees to exchange one day lost for one vacation day taken.

It has also been agreed between Lago/IOWUA that points 1 & 2 above are optional. Therefore, employees who do not wish the above arrangement should call P. Tromp of Compact Section, Phone 2846, not later than 4 p.m. Wednesday, March 31 and indicate so. If employees do not advise Compact Section, it will be construed that they agree to the above arrangement under 1 & 2.

Mrs. Betsy Meijer makes appearance on TV program as winner of the March Esso Safety Slogan contest. She is flanked by Hugo Dammers (left), Esso Dealer of the Lagoon Service Station, and Betty Ecury, chairman of the Safe Traffic Committee. The program was televised last Friday.

## VLADIMIR BOEKHOUDT WINS POSTER CONTEST

The winner in the Science Fair Poster Contest was announced yesterday during a special program on Tele-Aruba. He is Vladimir Boekhoudt of Colegio Arubano, whose poster depicts a lunar module descending on the moon.

Albert Eman of the Lago Science Fair Committee, presented the prize of Fls.25 during the program.

Also present were Bertrando de Cuba, LSF member, and three students, whose posters were judged the next best by the Committee.
